HOLE-IN-ONE

On Wednesday, February 24th, Dan Moore aced #3 with a pitching wedge from 118 yards.

GOLF TIP: PROPER RANGE PRACTICE

When you get out to the practice range, start out with several minutes of stretching. Then, practice with a wedge. Make swings with 50% of your normal tempo with the wedge. Make

sure you are aiming at a specific target, and periodically change your target. Consider working on the basics that create a great swing including alignment, grip, posture, and stance. Only have one swing thought with each swing. Don't rush shots at the

range as it can create bad habits. Approach each shot as though you are on the golf course and the shot is important. When practicing your driver, pick out an imaginary fairway and land your ball between two sets of flags.
