MERCHANDISE PRODUCT OF THE MONTH - ODYSSEY WHITE HOT VERSA PUTTERS

Odyssey Versa putters have a black and white head design to assist with better alignment at address. Aiming more consistently means more holed putts. The black and white lines have a contrast to make it easier to square up the putter to the target. The lines will aid the golfer in keeping the putter square to the path throughout the stroke. Odyssey’s research

shows when your putter is just one degree off at address it will produce a miss from as little as ten feet away. The versa line of putters has eight differ-

On Sunday, February 19th, Benjamin Desormiers aced the 13th hole with an 8 iron from 148 yards. Benjamin received a Notah Begay III signed hole picture, a hole-in-one poker chip, and a PGA certificate to commemorate the awesome shot.

GOLF TIP: PLAYING HOLE #9

The tee shot at Sewailo's 9th hole is a challenging, yet a really fun shot. This hole is a dogleg left and the drive is over a lake. The drive challenges you to both hit it over a lake and beyond the lake is a left fairway bunker. Your drive needs to fit in between this left fairway bunker and a right fairway bunker. Be sure to select the

correct club off of the tee that will easily land in the fairway. Visualize your line of play on the tee. If you are lining up your drive off of the tee, you may be using the casino dome off in the distance to choose your line. The safe play off of the tee is to drive more to right side of this hole and land in the fairway. There is more risk involved the farther left you play your drive since you are bringing water into play. A

bigger hitter will play a power draw to carry the lake and fairway bunker. If you are successful with a good drive, you will be set up to score well on this hole. A big drive that leaves a shorter approach will give the player a good shot at birdie.
