TIPS FOR FASTER PACE OF PLAY

1. Tee it forward to make your approach shot into the green easier.
 2. Take the rake with you to your bunker shot.
 3. Try to keep an eye on everyone's drives so as to not lose sight of balls.
 4. Take extra clubs with you.
- For example: A Par 3 tee shot.
5. Be prepared to hit when it is your turn. Select your club and plan your shot while waiting on others to hit.
 6. Double or Triple Bogey Max score.
 7. Write scores after reaching the next tee rather than around the green.
 8. Fewer or no practice swings.
 9. Leave your clubs/headcovers on your way to the next hole.
 10. Park at the back or side of the green where you exit and head towards the next hole.

GOLF TIP: BUILDING A PRE-SHOT ROUTINE

For each shot you take, start with the mindset that you will consistently approach the ball in the same manner. A good routine

starts from behind the ball. This is where you look down your line of play and visualize the shot. Make a practice swing and get the feel of the swing you want to make for the shot. After you line up your shot, set up your club on your target line and then

get your body set. To keep it simple, take your stance and grip the club the same way. Also, take the same number of waggles each time. Your game will progress toward more consistent swings and improved scores by building a pre-shot routine.
